

Hitec Retreat to Paris 25-27.01.2023

The Hitec Retreat to Paris has come to an end leaving the Orga team, and hopefully everyone else, with a sweet aftertaste. In total, 20 persons from 9 different institutes took part in this retreat.

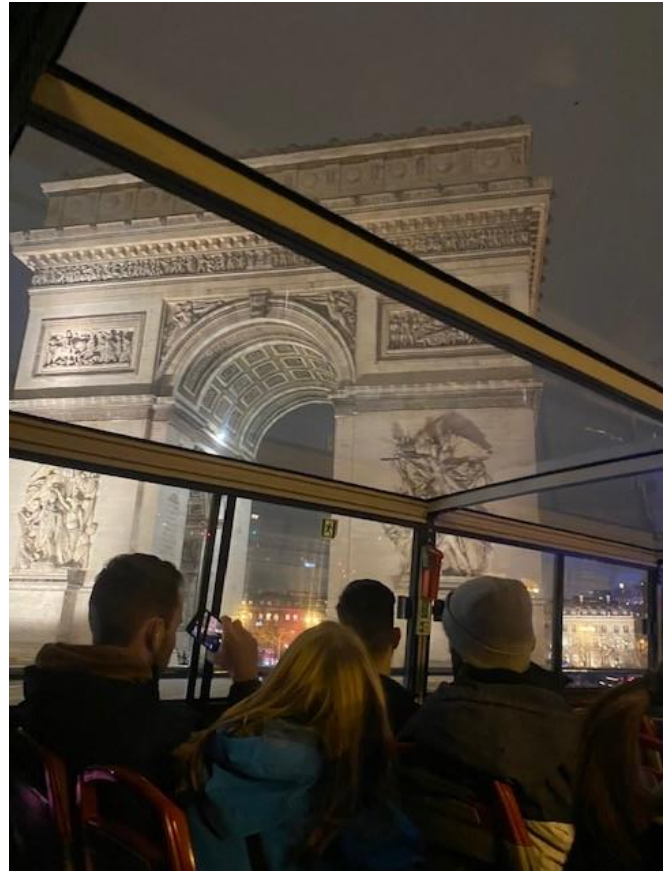

During the retreat, activities included a group lunch at a restaurant, a night tour of Paris on a bus, a conference and free time for the participant to explore and enjoy the city of lights.

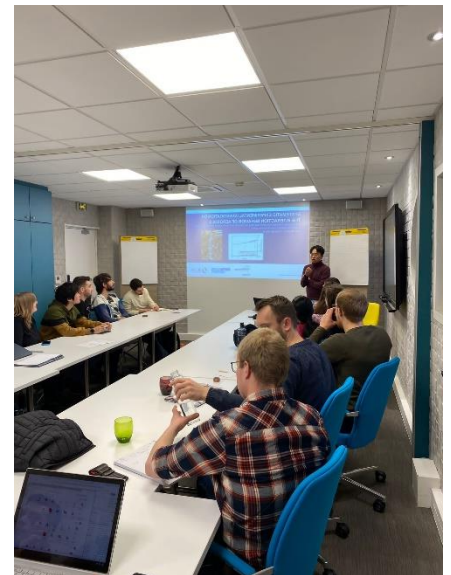

The restaurant we visited was called Mōpa. A vegan fast-food restaurant, with delicious dishes and handmade drinks. The atmosphere as well as the staff was warm and friendly.

After food, it was time for the bus tour. The bus drove us all around the major landmarks of Paris, in a 2-hours long bus ride.

The first day in Paris ended with some free time. Some people took walks while some others explored the night life of Paris.

The next day was dedicated to the conference which took place at the hotel's seminar room. There, each person had 10 minutes to present their work, followed by questions. Generally, the conference was super interesting and educational. We took a taste of all the different research backgrounds and the friendly atmosphere that prevailed between us allowed us to exchange and discuss concerns and ideas.

The last day ended with a group photo in front of the Eiffel tower before it was time to head to the train station and return to Germany with a feeling of satisfaction and a bunch of new friends 😊

The Orga team:

Sascha Alber, IEK-7

Kyriaki Blazaki, IEK-7

Amedeo Morsa, IEK-2
